

Declaration of compliance with the established restrictions in European Regulation 1907/2006 REACH concerning the registration, evaluation, authorization and restriction of chemicals.

Cables RCT, as an industrial downstream user that incorporates substances to the articles that manufactures, has the following obligations:

1. To provide information regarding their uses to suppliers of substances.
2. To implement measures specified by their supplier to ensure the safe use of the substance or take appropriate actions.
3. To manufacture and commercialize their products with a REACH regulated substances content under the threshold values this rule sets.
4. To keep up to date with the REACH modifications and updates of its Authorization list, Restriction list and Candidate substances list.
5. To keep up to date with the security information and changes that affect this material lists and to inform all along the supply chain of any relevant change.

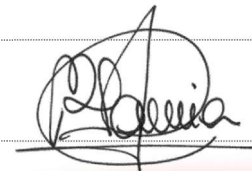

Cables RCT
